

Call for Papers – Abstract Management

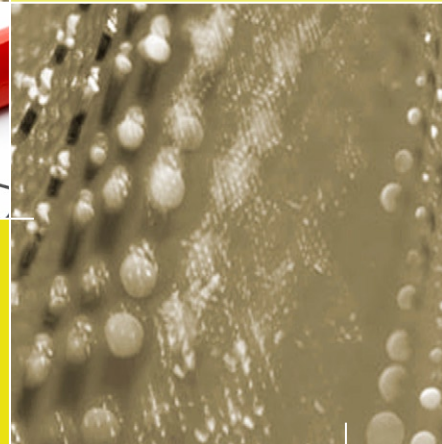

CadmiumCD is a multimedia company focused on the technology needs of conference planners. Our products include conference proceedings on CD or online, synchronized audio proceedings, abstract collection systems, online virtual exhibitions and speaker paper management tools.

ABSTRACT MANAGEMENT

The Call for Papers online tool is used for both collection and grading of conference documents like abstracts, papers, and posters. It is part of a broader system called the Conference Portal that enables conference planners to manage attendee and speaker data (registrations, papers, proceedings etc).

The Call for Papers tool allows potential speakers to upload abstracts within specified categories. Abstracts can then be assigned to different reviewers, where a rating system can be used to rank the different submissions and assign top submissions to the conference sessions. Once submissions have been accepted, you can use the tool to automatically send results to the submitters.

The system also provides quick at-a-glance summaries of how many submissions have been made within each category, how many of been reviewed and the results. Pricing is based on the number of abstracts anticipated and the amount of customization needed to activate the system.

CFP Turbo Summary

Client: Conference Strategists
Event: Regenerate 2007
Location: Westin Harbour Castle, Toronto, Ontario
Dates: 6/13/2007 - 6/16/2007
Event Website: <http://www.regenerate-online.com>

Total Submissions: 891
Oral Poster / Booth: 156 / 163 / 165
Number with Photos: 323

Session Summary

Note: *Reviews* state assume two reviewers per submission. We report missing out of total reviews.

Session Name	Reviews
(22) 3D Patterned Scaffolds	25 / 47
(6) Addressing Immune System Response	0 / 12
(99) Adult Stem Cells	75 / 79
(9) Biomechanical Training of Tissue Constructs	6 / 18
(22) Biosensors and Microvasculatization	20 / 22
(9) Cancer and Regenerative Medicine	14 / 14
(20) Cardiac	25 / 45
(27) Cell Integration into Natural and Synthetic Matrices	29 / 34
(11) Cell Sourcing	20 / 22
(6) Cell Tracking and Imaging	7 / 14
(18) Controlling the Cellular Microenvironment	33 / 36
(10) Embryonic Stem Cells	18 / 20
(2) Funding Tissue Engineering and Regenerative Medicine Research	4 / 4
(26) Gene Therapy in Tissue Engineering	20 / 32
(0) Metabolic Tissue Engineering	14 / 16
(4) Methodologies of Clinical Trials	2 / 0
(22) Nano Biotechnology	20 / 24
(21) Neural	41 / 42
(12) Oral-Dental-Craniofacial	28 / 29
(16) Orthopedic	20 / 22
(1) Regenerative Medicine in the Developing World	0 / 2
(27) scaffolds and cells for Musculoskeletal Regeneration	52 / 54
(29) Skin/Wound Healing	25 / 47
(19) Smart Biomaterials	30 / 26
(24) Soft Tissue Repair	53 / 55
(17) Structural and Biomechanical Characterization: Biological Scaffolds	31 / 31
(73) Structural and Biomechanical Characterization: Synthetic Scaffolds	42 / 46
(9) Tissue Engineering and Regenerative Medicine in the Clinic	14 / 25
(8) Translational Perspective on Regenerative Medicine	14 / 20
(25) Vascular	46 / 50
(451) All Sessions	800 / 926
